

# Great news from

We've been awarded the Provider of the Year Award 2015 from ITENZ – Independent Tertiary Education NZ.

The award is given to the independent tertiary education provider demonstrating quality in all aspects of its work. Our ethos is to provide a bridge to success for our learners. In doing so:

- we provide flexible pathways to national qualifications which allow people to select the topics and programmes that align best with their reality,
- we allow learners to determine their due dates for work and accommodate changes when life gets in the way of learning,
- we design learning and assessment resources that are contextualised to the real world, common sense and uncomplicated,
- we offer learning virtually anywhere: our motto is “Your pace, your space, your style”,
- we offer prices learners can afford and if they are struggling they can chip away at payments or, in some cases, learn for free,
- we access no government funding, and
- we support the triple bottom line approach to business recognising the importance of the three **P**'s : take care of the **P**eople and look after the **P**lanet and the **P**rofit will take care of itself.

We're darn proud of our achievement and thank all who believe in what we do!
